Are you ready to Transform Life Chances?

Our story

In 2010, The Rochester Grammar School (RGS) embarked on a transformative journey, envisioning a shift to Academy status. Embracing collaboration, RGS sought partnership with All Faiths School (AFS), to form a cross-phase Multi-Academy Trust in 2012 - The Thinking Schools Academy Trust.

Since the beginning, our Trust has been dedicated to enhancing educational opportunities and outcomes through a cognitive-based curriculum for students across the regions.

In 2013, the expansion of The Thinking Schools Academy Trust continued as it welcomed The Portsmouth Academy into its family, with other Portsmouth schools (Meon Infant School, Meon Junior School, Moorings Way Infant School and New Horizons Primary School) joining at later dates to form our South region.

In 2014, we extended our support to other schools in Medway, sponsoring Holcombe Grammar School (HGS) and The Gordon Children's Academy (GCA). Together, we embarked on a journey with the surrounding community by creating our first free school, New Horizons Children's Academy (NHCA).

In 2021, Plymouth High School for Girls (PHSG) proudly joined our network, followed by collaborative efforts in Devon.

By 2023, the unification of the Devon region stood as a testament to our growth, accompanied by the establishment of Lodestar Academy (LA), our first alternative provision school.

Driven by a passion for excellence, we have established four regional hubs across the South West, South, South East and East of England.

These hubs serve as pillars of support, offering expert assistance from early years to sixth form education.

Our holistic approach extends beyond traditional schooling, as evidenced by the launch of Little Thinkers in 2021, our first childcare and pre-school provision initiative.

We recognise the importance of sharing our expertise and resources with others in the education sector. We established the trading subsidiary, Thinking Solutions for Education in 2020. Our aim is to empower schools and academies beyond our network, facilitating their growth and success through access to our extensive network and resources.

At The Thinking Schools Academy Trust, innovation, collaboration and academic excellence are not just aspirations but guiding principles. We extend a warm invitation to join us in shaping the future of education, united in our commitment to progress and collective impact.

Mission & Values

At The Thinking Schools Academy Trust, we create a dynamic learning environment where everyone feels safe and supported in exploring knowledge and understanding.

Our schools are unique in their focus by offering a cognitive approach to education, which prepares our students with the tools they need to become lifelong learners, developing the best possible habits for success in life.

We are an educational community that involves both students and staff to learn how to think reflectively, critically and creatively.

We believe our staff are at their best when they are motivated, have clear expectations for their work and behaviour, feel valued, secure, confident, are challenged to grow, and receive constructive feedback.

This supports our mission to Transform Life Chances, helping us empower pupils to reach their full potential

Aspire

By nurturing aspirations and cultivating excellence, we believe that with the 'Thinking' philosophy, every student and member of the Trust can aspire and aim high to unlock personal and professional growth.

Challenge

Our Trust empowers individuals by presenting challenges through a cognitive framework that shapes their minds and fosters aspiring attitudes and habits, allowing every member of our Trust to be the master of their own destiny.

Achieve

Our community is encouraged to achieve and embody the highest levels of cognitive abilities and habits. We aim for our pupils to be naturally curious, excelling in both independence and prowess.

"TSAT provides a forward-thinking, innovative environment that not only benefits students but also supports educators in their professional development."

Colin Rudgey - Portsmouth

Who are TSAT ?

We are a family of schools working together
as one Trust to Transform Life Chances

We are a workload respecting organisation accredited by
Investors in People and Investors in Wellbeing

We have a community of more than 2,000
dedicated members of staff

Our schools support more than 17,500
